## DESCRIPTION

This project provides for planning and design of the Montgomery County Judicial Center Annex, coordinating associated requirements such as phasing, parking, and security.

## JUSTIFICATION

The Judicial Center's courtrooms are all assigned to current judicial positions leaving no room for new Circuit Court judge positions. On March 1, 2002, the Juvenile Court for Montgomery County transferred from the District to the Circuit Court. There is no room in the Judicial Center to house the Juvenile Division, which originally was comprised of three courtrooms in the Grey Courthouse. In January 2006, the 21st judge was added to the judicial complement and a fourth juvenile court was reopened in the Red Brick Courthouse. This results in the Circuit Court operating from three courthouses in the Rockville core. In order to meet the projected workload, URS Inc. calculated the need for the County Circuit Court judges at 22 by 2005, 28 by 2015, 31 by 2020, and 34 by 2025 to meet workload. There is no room for future expansion of other offices such as the Clerk of the Circuit Court, the State Attorney's office, Sheriff's Office, and Register of Wills that are projected to grow to support the Court.

The following studies have been completed to address the requirements of this project:

October 2003 Judicial Center Annex Project Report (URS/Fentress), October 2003 Courtroom Utilization Study (URS/Fentress), August 2003 Planning Drawings for Phases 1 and 2 (URS), November 2001 Circuit Court Facilities Needs Report (Vitetta Group), February 1998 Montgomery County Circuit Court Facility Master Plan, Impact of Family Court, and Staff and Space Requirements reports (Vitetta Group), and the Rockville core plan. Courtrooms are designed to meet National Center for State Court standards. Vitetta options included housing courtrooms in the Grey Courthouse, renovating the Judicial Center to add courtrooms with an annex for support space, and building a courthouse annex. URS developed both Phases 1 and 2 in greater detail and extends Phase 1 from 2010 to 2015 and Phase 2 from 2020 to 2025. Additional studies by DPWT revealed that two-phase construction of the annex presents significant issues in terms of construction complexity and total project costs. An architect was selected in 2007.

## FISCAL NOTE

This project is recommended only for planning and design. Final project cost estimates including construction will be determined during the design development phase. The project includes preliminary cost estimates only. Project design will commence after the Chief Administrative Officer approves the project scope.

## OTHER DISCLOSURES

- A pedestrian impact analysis will be performed during design or is in progress.
